MACS

Meeting minutes
6 July, 2023 at 12pm via Zoom

Present:
Ebubechukwu Alor
Sharon Chatragadda
Mengqi Liu
Mayra Sofia Ruiz Rodriguez
Haoyue Zhang
Lei Zhou

Meeting type

- Discussion

Goal

Discuss the team skills and previous development experience which will help us decide the framework and/or languages we will use for the project, as well as defining roles for each team member.

Agenda

- Framework/Languages discussion for the project
- Team roles and previous development experience
- Work distribution for Sprint 1

Additions to the agenda

- Lei proposed to talk about the 4 user stories we need to define for Sprint 1. Everyone agreed but due to time concerns this was added for the agenda for the next meeting.

Discussion

The team agreed on the technologies to use: React for frontend, Flask for backend and MongoDB for database. This was decided based on the team skills and the requirements of the project. Alor, Sharon, Mengqi and Haoyue took backend roles while Lei and Mayra took frontend roles.

Next Steps

- Team to discuss on the next meeting the focus for the 4 user stories we're going to work on
- Ask Professor or TA if the application will need to be deployed
- Ask Professor or TA if we need any other specific roles for the team

Next Meeting

Next meeting will be held on July 7th at 9:30am via Zoom.
